## THE TASTE OF DISCOVERING WITH GAMES

ABOUT THE PROJECT

With this project we aim to develop our students' digital, language, and social skills by using cultural elements of different countries. For doing that, we aim to use games. At the very beginning of our project, we decided to create games with teachers for our students to play. At the end of the project, students will be able to create their own cultural games within the scope of their knowledge that they gain from our project.
